## LETTER FROM

W. McLAUGHLIN.

To the Voters of Pocahontas

County:

I have tried to make a clean and  
honest campaign this year and  
hoped that my opponent would do  
the same. As I have always regard-  
ed a mud-slinging campaign as  
something to be avoided. But with  
his picture on the front page of  
an independent paper and with  
his willful and malicious attack on  
me, it looks like he has not done  
up as he would have me do to him.

You all can be the judges.

As to the Pocahontas Independent,  
if it wants questions answered  
let it ask them. Editor, or  
Manager sign his name and the  
answer will be forthcoming. I  
have answered the gravest charge  
that they seem to have made against  
me by the affidavit found in the  
Times, which goes to show that if  
the said Independent will misrep-  
resent one fact, "any of its  
slandering attacks worthy of be-  
lief. As the law maxim has it:  
False in one thing, false in all.  
As Shakespeare says:  
"I will be honest if some eternal  
villain."

Some busy and insinuating rogue.  
Some cunning, opening slave, to  
get some office.  
Have not desisted this slander."

This fellow countenances, I leave  
you to decide.

You elected me two years ago to  
represent you and your interest  
which I did at all times and under  
all circumstances regardless of any  
political affiliation. I have no  
apology to make for any vote I  
cast. Had I the things to do over  
I would do just as I did under the  
same circumstances.

I worked for and voted for  
John T. McCreary for the United  
States Senate until the last day  
was dead. I worked for and se-  
cured the passage of the cocaine  
bill. I worked for and secured  
the passage of the assessment bill,  
changing the date of the suc-  
cession year from January 1, to  
April 1. I worked for and se-  
cured the passage of two bills cre-  
ating the 12th and 20th Judicial  
Districts, composed of Barbour  
and Randolph and Pocahontas and  
Greenbrier. I stood by and work-  
ed for a labor bill which never  
reached its passage, known as the  
Patterson bill. I voted for Col.  
McGraw because a majority of my  
constituents regardless of political  
alignment wished me to do so and  
sent petitions to me to show their  
choice.

I worked for and secured the  
passage of the cocaine bill because  
I saw each day its dreadful effect  
upon the men and even the boys  
of my neighbors. I will say right  
here that my bill was all drafted  
by lawyer friends, practically all  
being passed by lawyers. F. R.  
Hill drafted the cocaine bill.  
Two heads are better than one  
anyway.

After I was elected I was asked  
by many farmers in this and other  
counties to have the assessment  
law changed as above stated. I  
promised them I would do all I  
could and went to Hon. N. C. Mc-  
Nail, who has gone through the  
mill as well as being a good lawyer,  
and there he wrote the bill. I  
carried it to Charleston with me  
and introduced it early in the ses-  
sion as House Bill 15. Later on  
Warren Hays introduced a bill en-  
tirely different from mine known  
as House Bill 16. Later on the  
general tax bill called the Lacy  
bill was introduced and killed by  
the Hays bill. The Lacy  
bill was killed in the Senate.

Then I realized how little I  
could do with my money against  
the Hays bill. The session was almost  
gone and my money had made good  
use to the President of the Ses-  
sion, Dr. Hatfield. He said to  
get the bill over there and he  
would help out with it. This I  
did and the speaker of the House  
said he would recognize me as  
a speaker at night. He did and

## A STRONG ARGUMENT

The following card, made like a  
blotter, signed by a dozen grocery  
firms of Delaware, Ohio, has been  
scattered by the thousands, and  
has proved very effective in a  
campaign which, writes Dr. C. W.  
Barrow, "is moving splendidly."

"Anyone who drinks three  
glasses of whiskey a day for one  
year and pays ten cents a drink  
for it, can have in exchange at  
any of the firms whose names ap-  
pear on this card 3 barrels of flour,  
20 bushels of potatoes, 200 pounds  
granulated sugar, 1 barrel crack-  
ers, 1 pound of pepper, 2 pounds  
tea, 30 pounds salt, 20 pounds  
rice, 50 pounds butter, 10 pounds  
cheese, 25 pounds coffee, 10 pounds  
candy, 3 dozen cans tomatoes, 10  
dozen dill pickles, 10 dozen or-  
anges, 10 dozen bananas, 2 dozen  
cans of corn, 18 boxes of matches,  
a half bushel beans, 100 cakes  
soap, and 12 packages rolled oats,  
for the same money, and get  
\$15.30 premium for making the  
change in his expenditures."

Editor Times:  
If you will kindly allow me  
space in your valuable paper I  
will try to give a little sketch of  
this part of Florida, as I have  
never seen anything from here.  
Two years ago we moved from  
Marlinton to Polk county, in the  
southern part of the state. We  
live near Garfield lake—a very  
pretty lake and is full of fish.  
Bartow, the county seat, is nine  
miles from us. This part of Flori-  
da is certainly booming. There  
have been several hundred orange  
groves planted in the last year  
and many more are preparing to  
plant. People are coming here  
from almost every state and buy-  
ing land. Land around here sells  
at from \$25 to \$50 per acre.  
There are lots of improvements  
going on here. A new town is  
starting up near us. The land  
is suited to the cultivation of  
fruits mostly. The orange and  
grape fruit crops were larger this  
year than for several years past.  
Florida is like most other states—  
it has its advantages and its dis-  
advantages. It has a fine climate  
but not much good soil. Winter  
is the prettiest part of the year.  
The summers are hot and the  
rainy season makes them dis-  
agreeable. One thing looks odd to  
me, coming as I did from among  
the mountains and stones—there  
are not any mountains or rocks  
here at all.

LILLIE MELARK.

THE ESSENTIAL FACTS

Carefully analyzing all of Mr.  
Roosevelt's various statements in  
regard to the Standard Oil con-  
tribution, we find the facts to be  
essentially as follows:

1. The Standard Oil Company  
never contributed to his campaign  
fund.

2. If the Standard Oil Company  
did contribute \$100,000 to his  
campaign fund he never knew  
about it.

3. As soon as he heard of the  
Standard Oil Company's contribu-  
tion, he ordered the \$100,000 re-  
turned.

4. The money was not returned,  
but if it had been Frick of the  
Steel Trust would have made good  
the deficit.

York World.

The Little League District reading  
club met October 12, 1912. The  
following teachers were present: Miss  
Minnie Jane Martin, Maggie Mar-  
tin, Margaret Lacey, Mary Kin-  
caid, C. Smith, Vernon Dismick,  
Alice Clark, Mabel Baxley, Mrs.  
J. B. Wynn, Mrs. J. B. McArthur,  
J. B. Boler, J. C. Ota, T. A.  
Bentley, J. H. Lacey, J. B. McArthur,  
J. A. Thurg, G. F. McKee, Charles  
Lester, Ray McMillan. The program  
which was taken from "The Teacher  
and the School" by Clegg, was  
well rendered. Although we had a  
good number of teachers at this  
meeting, it was noted that most of  
the teachers of this district were  
absent. We hope to see next meeting  
present at the next meeting.

## MINNEHAHA SPRINGS

It was my privilege to attend  
the meeting of the Minnehaha  
district Sunday School Convention  
held at Minnehaha Springs on  
Saturday October 5, 1912. A  
large crowd attended, and the  
day was exceptionally good;  
the dinner could not be beaten  
anywhere for variety and abun-  
dantly. Henry White is district  
chairman. The entertainment was  
good and appreciated.

I spent two hours early in the  
morning looking over the grounds  
and improvements and was very  
much interested in present attain-  
ments, as outlined to me by my  
guide, Mr. McKee. The main-  
tain scenery and its visible extent  
is grand. The spring is a curi-  
osity as to its origin and location,  
and my guide informed me that  
the water issuing therefrom was  
at no time affected by heavy rain-  
falls, but remained clear as crystal  
during and through pecky and  
protracted down pour of rain.  
The water is very clear and of  
strong volume.

A large basin has been built of  
concrete at its rise, and the water  
is conveyed through a large pipe  
to the bathing pool, which is very  
substantially built of concrete,  
large and commodious, and lo-  
cated in a large building in which  
a number of side rooms are placed  
for convenience of visitors. This  
main building as constructed so  
far, is a model of good architect-  
ure and a credit to the architect.

A splendid site has been select-  
ed by the management for a hotel  
located on top of a knoll near the  
bathing pool, with elevation suffi-  
cient for a fine view of the sur-  
rounding country.

A club house is being erected  
on the edge of the spring, of very sub-  
stantial proportions, and a laundry  
building is now completed and far  
from the club house, of very lib-  
eral dimensions, to accommodate the  
sportsmen this fall.

As for a grove of small white  
pine as can be found in the state  
for park purposes few near the  
club house. This is being cleared  
up and improved, and when fully  
completed will be an ideal place  
for sports to continue during the  
warm season.

The most important project that  
will attract public attention will  
be an electric railway from Mar-  
linton, which will be a paying in-  
vestment. The added value to  
real estate will result in a large  
addition to the taxable base of  
the district and county. This en-  
terprise deserves public apprecia-  
tion and support, as its benefits  
in many ways will accrue to all the  
citizens of this section.

GEO. F. KNOX.

The Little League District  
Sunday School Convention will be held at  
Marlinton October 19th, all Sunday  
schools are invited to partici-  
pate. —W. R. Martin, Sec.

## EX-GOVERNOR GLENN'S

TESTIMONY

While opinions may differ, as to  
the effects of Statewide prohibi-  
tion upon business in general, one  
thing is sure,—in the end truth  
will and must prevail, and temper-  
ance will prove its value in  
spite of all that may be urged  
against it. Concerning the condi-  
tions in North Carolina, we give  
a few quotations from a recent  
speech by Ex-Governor Glenn:

"We have driven liquor out, and  
there is no grass growing in the  
streets of any of our cities and  
towns. The State is entering  
upon an era of prosperity, the  
like of which she has never known.  
This is attributable to Statewide  
prohibition. Crime has diminished  
fifty per cent, as shown by the  
fact that forty jails in this State  
are empty and idle. Since 1907,  
when the State went dry, school  
attendance has doubled. Church  
attendance has largely increased,  
and a great wave of spirituality  
has swept over the State." These  
facts are worth remembering, and  
will prove a conclusive answer to  
any objection that may be urged  
by the liquor element against the  
efficiency of Statewide prohibition.

J. A. McLAUGHLIN.

Editor Times:  
The voters and tax-payers of  
Lexington District would like to  
know something about the stock  
law they are to vote for or against  
at the approaching election. As  
they understand it now, if this  
law goes into effect, is this: If my  
stock should get out and trespass  
on the lands of and do him  
damage, the owner of the  
said stock is liable to the owner of  
the said land or to the owner of  
the said property? How does this  
law apply to railroads, where the  
rights-of-way is not fenced? Sup-  
pose a man's stock should get on  
the railroad and should cause a  
wreck, would the owner of said  
stock be liable to the railroad for  
damage to said wreck? Now, it  
seems to me that this law, if put  
in force, is going to work a great  
hardship on the owners of small  
farms and the poorer class in par-  
ticular. Can't you give us through  
your paper light on this question?  
We can vote on it intelligently if  
we can vote on it intelligently.

## OCTOBER

Just call for blue sky & smiling,  
And call the green earth a fair;  
Then you have a picture brought,  
And it is October once more.

High colors no longer arrest  
Could come as perfectly blind,  
And stretch out a canvas of paint-  
ing.

Without a beginning or end.

The true type is forever present,  
And banners of crimson float,  
And glittering gold umbrellas,  
In plain neighbor's brown coat  
and coat.

Summer green fingers in places,  
As if it were both to depart,  
And tingled with notes of jubilee  
Upon Nature's unending chart.

Twelve pictures per year are  
given.  
One by one, as each month comes  
But I think the loveliest picture  
Is October as we see to-day.

## HUNTERVILLE

Politics are warming up some-  
what in this village.

Prof. and Mrs. Silas Walker  
entertained a number of young  
folks Saturday evening.

Rev. Mr. Rasch preached to a  
small congregation here Sunday  
evening.

Mr. Shaver was taking up  
lamb last week.

James W. Leary is at August  
cooking for the railroad carpenters.

Zane Moore of Minnehaha, has  
treated himself to a brand new  
Milburn wagon.

Miss S. A. E. Moore went to  
Cass last week to be absent sev-  
eral days.

Clyde Gregg, who has been em-  
ployed at Denmar, came home  
last week to attend school.

Rev. J. C. Crothers spent sev-  
eral days at Lewisburg last week.

Bert Dille, who had been at  
Elkins a few weeks, has returned  
to this neighborhood.

Miss Madge Ervine went to  
Marlinton Saturday to visit her  
sister Miss Anna Lee Ervine.

Senator W. C. Grimes, of Key-  
ser, and Hon. Geo. W. Wilson  
addressed the people here last  
Thursday night.

The Misses Laymen of Frost-  
burg, Maryland, who are guests  
at the home of J. O. Carey and  
family, spent a few days at Den-  
mar last week where Mr. Carey  
is employed.

Two attractions which were bil-  
lied for this town last week failed  
to materialize. They were a speech  
by Hon. A. D. Williams and an  
illustrated sermon by C. Arthur  
Bell. People do not like to be  
disappointed like this and appoint-  
ments should not be made to be  
broken.

The first teachers' reading circle  
convened here Saturday with  
five teachers present as follows:  
President Silas Walker, secretary  
Miss Grace Moore, Miss Mae Hyl-  
bert, D. L. Walker, and Austin  
Dezman. Four of the five teach-  
ers were from Boone county.

Everything is in readiness at  
Minnehaha for the reception of  
hunters when the season opens the  
fifteenth. Quite a few sportsmen  
are expected this week and the  
hunting promises to be interesting  
as deer are known to be in close  
proximity to the camp.

Miss Bertha Thornton, who is  
teaching the North Fork school in  
this district, was visiting at Sher-  
iff Buzard's Friday evening and  
Saturday. She was accompanied  
by Miss Ruth Alderman, one of  
her pupils.

J. B. Pyle, of the Fenton and  
Pyle Lumber Company, operating  
on Brown Creek, has moved his  
headquarters to Pennsylvania.  
The job will be carried on in the  
future by Mr. Fenton who is ex-  
pected here in the near future—  
he being detained at home on ac-  
count of his wife's illness.

Our temperance league was ad-  
dressed last Friday evening by  
Rev. Walter Grimes and H. M.  
Lockridge.

Our vouchman Mr. Wm. Curry  
who will soon be ninety-one years  
old, was on our streets bright and  
early Saturday morning, wearing  
his blue and pink with the legs  
like a lad of sixteen. Every-  
body is glad to meet "Uncle Billy"  
as he is familiarly called, for he  
always has a word of good cheer  
for those with whom he comes in  
contact.

The morning was a bright Septem-  
ber morn.

The earth was beautiful as if new  
born.

There was that summer splendor  
everywhere.

That with exhilaration in the air,  
Which makes the green in the  
city street.

Congratulations each other as they  
went.

—Laughlin.

With the aid of the parents and the bank this important lesson can be early inculcated.

Lloyd Vanreman brought in an apple of the Ben Davis brand of the crop of 1911. He had picked it a year ago, saved in a cellar and it looked as good and plump as one could desire. # WATKINS

The fine fall weather is giving the farmers a fine chance to dry their corn crop of potatoes and pasture their winter supply.

The first candidates to appear in this part since the primary were seen here last week.—Hon. William Gibson and Deputy Attorney J. W. (Navy). These Democrats may have felt that they would like to support their old friends, but when it is very fashionable now days to persuade a man to vote against his party, and then try to kill him personally in both parties for doing so, how yet want men to thinking deep. It is an old adage: If you don't want anything said you had better not tell it.

The telephone meeting at Camp Greenbank last Saturday. It is hoped that some active and efficient work will be done on the line also the perfecting of a better system. An able board of directors elected at follows: President, H. L. Kuster; Secretary, Willie Cassell; Treasurer, Allan Galt; general manager, John Geiger.

J. W. Goodsell visited the school house Saturday and found the work highly satisfactory. Mr. Goodsell has been one among our best public men and we are the way clear that he will go further yet. Next year it will be ready and bridge we believe in spite of the rumor that he is going to head the county for fifty thousand dollars. A like falsehood was used against Hon. J. R. Hevener, just before the election, that the Levels district was to have Greenbank's road funds next year, and thus turned many votes against the man. Mr. Hevener has turned over the district funds to the Levels, seeing that they are under the law as well as any other man. This bond business must come by a vote of the whole county and not the county court.

The men that corrupt such injustice are more ignorant than the man that believes, to say nothing about the other part.

It is becoming not so interesting to read these political quarrels. We would suggest that we set on the suggestion of the Irishman, when his comrade was about to shoot a woodpecker. Jim was going to fire on a beautiful red head, when Pat cried out not to shoot, let him alone and he would pound his own brains out.

#### MRS. GOLDIE GATEWOOD

Mrs. Goldie Yeager Gatewood, wife of William B. Gatewood, died at the home of her parents, Sunday morning, October 20, 1912, after an illness of four months duration, in her 31st year. On Monday the funeral service was conducted from the M. E. Church, South, by her pastor, the Rev. J. H. Bean. Interment in the Marlinton cemetery. The pall bearers were T. C. Anderson, E. M. Arbogast, T. S. McNeil, F. M. Sydnor, Dr. E. B. Hill, and A. D. Williams.

The deceased was the second daughter of Mr. and Mrs. B. M. Yeager. She had her home here from early childhood, and her death distressed a large circle of attached friends.

Five years ago she was united in marriage to Wm. B. Gatewood. For the past year her home has been in Indiana. She is survived by her husband and little son; her parents, sisters and brothers, to whom our sympathies are extended.

Georgia, aged 12 years, daughter of Mr. and Mrs. William Varner, of Elk, died of appendicitis in a Baltimore hospital, Tuesday. She had been sick less than a week, and so rapid were the ravages of the disease that she was in a dying condition before reaching the hospital. She was brought back yesterday and will be buried in the family graveyard on Elk, today. Our sympathies are extended.

Mrs. Mary Harris Armour, of Georgia, spoke at the Opera House Thursday, October 17th, to a very appreciative audience. U. wish to thank Mr. Tilton for the use of the opera house on this occasion.

Report of the Little Lenoir district has the most enthusiastic body of teachers it has ever had. This fact was shown by the district institute which was held October 18, 1912. All the old teachers agree that there had never been a more interesting institute held in this district. There were twenty-eight teachers present, and each did his or her best to make the institute a success. The program consisted of eight of the local problems which confronted every teacher. These problems were thoroughly discussed by the parties to whom they were assigned. There was no lack of response when these problems were treated for general discussion. Every one participated with information of maximum. It was unanimously voted that the institute should have a quantity of material for their local health, sanitation, and such county office. A high point in the district was the celebration of the prohibition anniversary before November 1.

#### FROM ST. STRICKLEN

Edwin Tison—Recently I received from some friend in Pennsylvania a married copy of the Times of October 15, in which appears an editorial, referring to me in connection with the affidavit furnished by McLaughlin, among other things you say: "The mother was a Woodhull from this county. You are in error about that; my mother was Elizabeth M. Gilman, daughter of Alex Gilman, of Rock Creek, in Highland Co., Va. I was born in Winchester, Va. I am not completing, only calling your attention to the fact; I have no grievance, if the Woodhulls will 'stand for it.' Neither am I at the head of the Masonic fraternity in W. Va. I am a 32nd degree, 'have on' all except one, but officially, so far as the grand lodge is concerned, I am only a private. It was not what you said, but it occurred to me that possibly you was stirring me a little too much, that I was getting a 'rep' to which I was not entitled. My brother was recently grand master of W. Va., and possibly that is where the confusion comes in as to position. Please excuse me for 'bottling in' when I have no complaint, but I think it proper to enter 'a disclaimer for fear a question of title might arise.' I hope to see Mr. McLaughlin re-elected, he was a faithful and industrious member reflecting credit upon his constituents; he was the patron of the cocaine bill as well as the bill fixing the time for commencement of the assessment year. I heard Gov. Wilson today deliver a splendid speech at Chambersburg to a large audience, notwithstanding the rain and the mud. There was no mud in his speech either."

Will A. Stricklen, Ellensburg, W. Va., October 19, 1912.

#### LOURY FOR OFFICE DEPUTY

John Waugh has made arrangements whereby Joe C. Loury will be his office deputy in case he is elected treasurer of Pocahontas county. Mr. Loury is particularly well equipped for this office and would do the work carefully and conscientiously. With Mr. Waugh and his deputies, E. A. Hudson and T. A. Spence, to do the field work and Mr. Loury to take care of the clerical work in the office, the assessment of property in Pocahontas could be defended up to the hilt.

Hon. W. D. Zinn, of Barbour county addressed a small audience at the opera house Monday night. He is on the Democratic ticket for Commissioner of Agriculture, and this State or any other state has a better man for the place. He is well known to Pocahontas farmers, held institutes here, and is a regular contributor to the leading farm papers. When here Mr. Zinn met his old school friend Geo. W. McCollum, whom he had not seen in 25 years.

Ralph Johnson the 13-year-old son of Paris Johnson, of Marlinton, W. Va., struck hard luck in Harrisonburg this week. The lad was in care of a West Virginia man, who drank too much booze this week, got put out of a local hotel, had most of his luggage stolen, was forced to sell his horse and buggy for ten or twelve dollars, and became down and out generally. The little Johnson boy has gone to Lilly to visit friends and will be taken back to his West Virginia home soon.—Harrisonburg News, (October 12.)

The Woman's Christian Temperance Union will meet on the second Tuesday in November instead of the first, as heretofore. Mrs. W. J. Yeager will be hostess on this occasion.

The ladies of the Home Mission Society of the Methodist Church, will hold a bazaar, and serve a turkey and waffle dinner and supper in the Oakridge Building, Thursday, October 24th. Everybody invited.

#### HATFIELD SPEAKS

Dr. H. D. Hatfield, Republican, Bull Moose candidate for Governor, and A. A. Lilly, candidate for Attorney General, spoke at the opera house Monday evening. The leaders of their respective parties, the Republican and Bull Moose politicians to the affairs of state, and expressions of sympathy for Colonel McGraw for the perfectly reliable was treated by the legislature of 1911 in the matter of choosing a United States Senator.

Mr. Lilly expressed confidence in the ability of "Old Abe Lilly" to handle the Virginia Debt business if he was elected Attorney General. He is a rather fluent speaker and told a story illustrating the unusual conditions in the domestic affairs of the Republican party in this State this year. It seems a man and a woman were married, each of who had children by former marriages. As time went on other children were added to the combined families. One day a racket was heard going on among the children. The mother rushed in the door and called to the father: "Bill, Bill, come here quick; your children and my children are kicking the devil out of our children."

Doctor Hatfield is not especially gifted as a speaker, and failed to be convincing in the matters he chose to discuss. He largely confined his remarks to the injury inflicted on McGraw by the Democrats and the villainy of a certain disfranchising act, alleged to have been attempted by the Democratic legislature of 1911. Most of his hearers seemed bored at this, as few believed that anything very bad had been attempted along this line. The recital of Colonel McGraw's defeat brought forth faint cheers of sympathy. Doctor Hatfield agreed with Mr. Lilly that all the real talent for transacting public business is at present incorporated among the Republican candidates and politicians. And all corporation lawyers this year are running on the Democratic ticket.

Regaining control of the legislature seems to be an important feature in the program, and the speaker urged support especially for the local Republican candidate.

Neither of the speakers talked of a single issue that is engaging popular attention this year, except to express confidence in the sublime and sacred principle of protection to infant industries, and maintenance of American standard of wages, which does not exist for the man who works at common labor in this country is already brought in contact with cheap foreign labor.

A case of more than usual interest was tried at the last term of the circuit court, of Fred Stark vs the Brushy Run Lumber Company. The plaintiff sued for seventy dollars wages. He was employed by McCray Brothers, contractors working on the lands of the Brushy Run Lumber Company and delivered logs to the mill of that company. The plaintiff claimed that the company was liable for his wages, and the defendant that he would have to look to McCray Brothers, who were in a bad financial condition. The jury found for the plaintiff the full amount of his claim. Upwards of a hundred accounts are in the same condition, McCray Brothers failure having thrown a great many laboring men in a bad fix. The attorneys moved the court to set the verdict aside and in view of the fact that a number of intricate points of law are involved and that a large number of cases are in a measure dependent upon this one trial, the court took time to consider and has not yet passed upon the point, the attorneys for the defendant asking leave to have time to prepare and file written briefs.

Two deer were killed on Elk River by a party of hunters from the lower Greenhills.

How You Can Help the School

During the time of the exhibition of the Turner Art Exhibit at the Marlinton school building, October 21, to November 2 inclusive, we earnestly solicit your help in the following manner:

1. By the attendance of our children, thereby creating a fund to be expended for pictures for the school museum. The admission fee is trifling for such a famous exhibit.

2. By making a subscription of whatever amount you may feel disposed to give toward the picture fund. For every dollar thus subscribed we are entitled to 33 1/3 per cent additional.

3. By giving orders for pictures for your own home. On such orders we are allowed 50 per cent additional.

4. By individual, family, or group, women's clubs, societies, etc. making the school a donation of a picture or pictures selected by themselves. These pictures ordered through us and they are of the very best, give us 25 per cent additional fund.

5. Last, but not least, by having your friends of the opportunity of seeing the finest collection of art ever gathered together in this country.

We shall try to make each day of the exhibit a social occasion. We invite the people of Marlinton and vicinity to see the picture of a great thing in our midst. Will you do so well as others have done? We will greatly appreciate your help.

Once and all the thank giving that ever came to town.

### "This is My Choice of Duke's Mixture Presents"

Among the many valuable presents now given away with Lippett & Myers' Duke's Mixture, the most useful is the "Duke's Mixture" itself. For all classes of men, the Duke's Mixture is the best. It is the only mixture that is not only good for the body, but also for the mind. It is the only mixture that is not only good for the body, but also for the mind. It is the only mixture that is not only good for the body, but also for the mind.

All along the shores of the Japanese islands the traveler encounters most picturesque scenery, one of the most attractive regions being the Bay of Matsuyama. In the southernmost island of Kyushu, a natural archway at Zaimoku island in that bay is shown in our illustration.

### LONDON'S ABDUCTION CLUB

Club spring up with and without reason. One of the strangest on record was the abduction club organized in 1796 by some well-to-do Irish people in London, who banded themselves together to abduct between and good-looking young women of gentle birth. As there was a large membership, many forced marriages took place in consequence of their exploits. The club became eventually so serious that a special act of parliament was passed making abduction a capital offense. Two of the members were executed for the abduction of two wealthy sisters in 1799, but the club was disbanded in 1800.

PROHIBITION AMENDMENT FACTS

TESTIMONY FROM GOVERNORS  
OF THE PROHIBITION STATES

THE PROHIBITION STATE OF MAINE.  
For the last fifty years every Governor of Maine, with three exceptions, has declared in effect that prohibition has largely benefited the moral, social, and the economic welfare of the state.

GOVERNOR STUBBS, KANSAS:  
"The prohibition law has not given Kansas a better civilization and a higher type of citizenship and character, and as a result has been repeated years ago."

GOVERNOR BURKE, NORTH DAKOTA:  
"Under prohibition the people of this state are better fed, better clothed, better educated, and are better citizens."

GOVERNOR CRUCE, OKLAHOMA:  
"Since the closing of saloons the farms have more money, the stores are getting more goods, real estate is worth more, and the whole state is more prosperous."

GOVERNOR BREWER, MISSISSIPPI:  
"It is a red-hot, uncompromising prohibitionist in favor of absolute prohibition, and of every species and form of state prohibition and national prohibition."

GOVERNOR KITCHIN, NORTH CAROLINA:  
"Under prohibition there has been a marked diminution in crime, business has increased, and politics and government have been relieved of one of their most corrupting influences."

GOVERNOR HOOVER, TENNESSEE:  
"The consumption of liquor in this state has greatly diminished, and the crimes resulting from the traffic have decreased in number."

TAX INCREASE  
TALK NONSENSE

Judge McWhorter Gives a Few  
Things To Think About  
On Amendments

DESTROYER NEVER A BENEFIT  
It is By Conserving Public Peace,  
Health and Morals That We De-  
crease the Burden of Taxa-  
tion—Not By Destroy-  
ing Them.

[By Judge J. C. McWhorter.]  
It is all nonsense to talk about the reduction of the saloon increasing taxes on property. It is a matter of common knowledge, and every court that has ever delivered an opinion on the subject has declared that the open saloon is destructive of life, public peace, health and morals. Everybody knows this is true. No one can contradict it. No universally true fact is this that the courts say they will take judicial notice of. It doesn't have to be proven in court. These facts: No man can point to a single instance in which it increased the burden of taxation to prohibit the doing of a thing which is destructive of life, public peace, health or morals.

Think for a minute. You can't recall one where the liquor traffic can be an exception to the rule. It is by the prohibition of these very things which are so destructive of life, public peace, health and morals that we avoid governmental expense and costs. Think a minute.

Slavery was destructive of public morals. Did it increase our burden of taxes to abolish it? No, only as we have been compelled to pay a heavy war debt as the penalty of our folly and stupidity, in trying to settle a question like this by the standard of dollars and cents instead of by the principles of right and wrong until the war was a million of dollars in cost.

Literature was destructive of public morals. Did it increase our taxes to abolish that source of revenue? Not a penny.

Think a minute. The only purpose of government is the preservation of life, liberty, public peace, health and morals. All taxes paid are to defray the expenses of the government in its protection and preservation of these fundamental things. Therefore, we can't down exposure of government and have taxes just as we eliminate these things which are destructive of life, liberty, public peace, health and morals, and we increase taxes and expense just as we keep and tolerate in our midst these things that cost common sense? Think a minute. There is no right way of doing a wrong thing. Things that are themselves can not be perpetuated and made a source of revenue. It is contrary to the eternal and unchangeable principles of all things. Everything in the land which is destructive of life or public health, peace or morals is necessarily a source of public cost and expense. We all know this to be an absolute fact. And the more we extend a revenue law to license the sale, and the more we spread the evil, and the more we increase the cost to ourselves in holding it in check. Then we simply spread the same disease, and in the end we have nothing of revenue left, because the thing itself sets up its own revenue. Isn't this common sense?

Our state receives a certain amount of revenue each year from the liquor trade. (Remember, the counties do not receive a cent.) Over the business credit for this revenue, then change is the increase of court costs, jail and prison costs and insane costs, caused by the open saloons, and you will more than wipe out every dollar of revenue you receive. This is no pipe dream; it is the result of actual experience in "prohibition states." In other words, the liquor trade doesn't pay its own expenses to the public. This is the plain truth of the matter. And this is the reason why, as a general rule, rates of assessment are higher in license counties than in non-license counties and why license counties are so much more heavily burdened with debts.

EDITORIAL

one attorney is called to the stand on next Tuesday, November 10, as a witness at vari-

your attention is called to the fact that on next Tuesday, November 10th, an election of ward officers will be held in this ward, in which three and three-half persons, over the age of eighteen, not disqualified by any infirmities or other disabilities, will have an opportunity to cast a vote in a secret manner for a place of educational goodness, to share out their fortunes to the best. Some of those candidates will be your acquaintances, others you will know only by hearing their names in public place or through the words of those who have seen them, and will know little about any of them. As a matter of fact, the man is a mighty uncertain guess, and you do not know how these men are going to perform after they are elected and to work. When we go forth like a cock, we act generally and do in a general way, that person that we are hiring on down cock, and if a mistake

then made, if the employer is not, then ordinary determined recklessness, he can fire the cook and get another one. But when select a man to office, we do not know whether he is going to be honest and industrious and kind, and if he turns out to be a wild trickster there is no adequate means of firing him, and he serves a term. Many a man has been elected to office who ought to have been relegated to the penitentiary a year ago. A further restriction on the hands of the electors is the fact that the rich and most capable men do not run for office. You take a class of sensible men, who find it in his work, and who provide his family, and sleep well at night, and you have a philosopher who would as soon go to being as to go into politics. This way the office seeking class really cut down. Politicians constantly reaching into this box to get good candidates, and good men of today may be the scum of tomorrow. So do not vote hard upon the candidate, but be a little the truth when

ing in which retribution so comes for leaving the simple. Trouble shall be his portion, nevertheless the burden of every good man to vote. sources responsible candidates. In a single exception, the one that you will see on the quill ballot which you will meet Tuesday are those of notable men. And we need be more definite in specifying one exception. The ballot is secret and that is a blessing to the average voter, who does wish to start any blood feud, asserting his right to vote. It is so that the voter was required to get upon a vice box and mutter in a loud tone of voice to be voted for. Now you go your chamber with God and

conscience and vote for a  
 other of you and he not has  
 right to make you disclose  
 you voted. With all this  
 the secret ballot is the best  
 method devised to take the sen-  
 siment of the country. In the old  
 times in England, men would be  
 tried to the polls in sedan chairs  
 with curtains drawn, and the voter  
 would emerge at the polls wearing  
 mask and do his deadly work.  
 The secret ballot came into use  
 in the fifties. Australia de-  
 veloped the present system in 1892  
 the coming of Victoria. The  
 American system is almost

Let the monster do the scratching  
Make a crash within the ring.

Ladies and gentlemen, and our magazine: Your attention is called to the fact that an election will be held on the 6th day of November, 1912, and that it is important that you be present, as there is vote to be done. If you cannot come, why send a hand. The men stole our iron constitution—do the voters this year, but the ladies do the deciding. It has come to such a pass that it is almost impossible to get the old men to stand for the storehouse any longer, even though he is making more than he ever did. He scratches his chin before the fire every night and wonders why he cannot save something for his old age. It is because the price of goods has become so high that it is impossible to save. This fight this year is the housewife's fight. She started it two years ago. This election if won by Wilson will be won by coercion. Regular old fashioned, brutal coercion at that. As a rule we do not take much interest in politics but by the eternal, there should be a change. President Taft vetoed every bill passed by Congress to reduce the cost of living. Up ladies and at him!

Are you weary, heavy laden  
Does your mail consist of duns  
Are you woman, man or maiden  
let us tell you hard up ones, that

son and for Marshall, they will  
come to your relief. Chorus  
Let the rooster do the scratching  
Hark the herald angels sing, you  
true ballot needs no patching  
put a mark within the ring.

We should never get so absorbed in politics as to forget our little lessons in natural history. Nothing so raises a man in the general estimation as to show that he knows a few things that surround him. Man was given dominion over the creatures to subdue them and use them for his purposes, and as a matter of course, knowledge of brute creatures necessarily takes a high stand. It is meat and bread and an easy living for those who understand the dumb creatures which are commercially valuable, but there is less sordidness in the study of those other creatures which are all in the world for some divine purpose. In order that the topic may be reasonable, we have taken the rooster as our subject. We might have taken the eagle, but that noble bird is moulting a few of its feathers this year and not in good shape for exhibition. And as for the bull moose, that grand animal got hurt, and the rules of the game forbid any extended remarks at this time. The rooster is the sacred fowl of the ancient Egyptians and the Democratic party in this State, because it is such a useful and widely distributed animal, appealing alike to the highest prelate and the poorest commoner. It was not adopted as a bird for the colored vote. Some sectors and sectors were in town the other day and they were talking about colored fowls and fowls. It seems that Aunt Dinah had told her man to get some chickens, and he wanted to know if he must buy them or get them in the regular

ordered filed. For a number of years the Democratic rooster has been doing most of his crowing before breakfast, but it is thought that next Tuesday it will start to crow after supper. The rooster springs from the Jungle Fowl which lives in the fowl jungles of the Malay countries and some parts of India. The main reason of this belief is the fact that the jungle fowl will crow at the approach of dawn. It crows to the domestic fowl to this day, and the hybrids are starting. Shamspeare calls it the bird of dawn and refers to the belief that at Christmas time it crows. All our

...and willfully ...  
...as to work as stated ...

The Democratic nominees in Poudre county ought to pull out of this election with good and substantial majorities. They are each and every one of them, good, clean, capable men, who are worthy of the votes of the people of this county. They will each and every one of them give the work of office careful attention if elected. The campaign has been carried on in an open and fair way. No candidate has been accused of selfish trades or secret connections.

We approach the election with the thought that who ever wins on the day of election that there are no unseemly acts to be remembered or deplored. We are in this county have shown in the past in virtue carried on in the interest of the county. And we hope we no our part that nothing has been said that could not well be said or thought in all decency and order. To the newspapers is given the responsibility of a decent campaign. In many counties in West Virginia, we have seen conditions or thought and feeling brought about by inaccurate newspaper utterances that need not have been if the editors had been cool headed, and remembered that a soft answer turneth away wrath. Our Republican nominees have all been mighty decent and nice this campaign. One side or the other must be beaten in every office of any worth in the county, and how much better it is after a healthy fight, there is no old wire to rattle, and affect the peace and good fellowship of the county for years. "Peace rules the day where reason rules the mind." In this last word before election, we wish to say, that everything is ready for a fair, square and honest decision in this county, and the best man will win. Nobody has lost his head and gone to work to bankrupt himself. Neither party has a corruption fund and neither party in the present hands would know how to use it if there was one. After next week we look for a conditions such as we find in Haworth.

Burns was the bloody butcher;  
Burns was the dreadful war-clerk;  
Burns wore all war-like weapons,  
And the war-ory was forgotten,  
There was peace among the nations

Our word about the contest for the Judgeship of the 10th District, which was suggested in a strong letter published in this County last week that partisan politics should not enter into the selection of a Judge, and all we want to say about this is that there never has been a time when the *integrity* of the two divisions of Peasbush and Greenbush could so very well afford to agree to the doctrine there promulgated. On account of the ability and fairness and consistency of the Democratic candidate for Judge with a rule of law in other cases than to add to his vote in this district, this responsibility to our judges has not always been placed in the past but, at the present time, we feel we have a candidate because he is good lawyer of Greenbush county both of them qualified to fill the position of Circuit Judge, which we now add is the most important office in the State, but if the rule of non-partisan politics be so applied and fairness is maintained in this district, it can only mean an improved race for the Democratic candidate.
